Sports Communications Systems

CONSUMER ALERT

Most users do not need a license to operate this wireless microphone system. Nevertheless, operating this microphone system without a license is subject to certain restrictions: the system may not cause harmful interference, it must operate at a low power level (not in excess of 50 milliwatts), and it has no protection from interference received from any other device. Purchasers should also be aware that the FCC is currently evaluating use of wireless microphone systems, and these rules are subject to change. For more information, call the FCC at 1-888-CALL-FCC (TTY: 1-888-TELL-FCC) or visit the FCC's wireless microphone website at www.fcc.gov/cgb/wirelessmicrophones.

The First Word in Sports Communications

Why do more professional teams choose Telex® sports communications systems? Because Telex® systems are built tough, and deliver unmatched audio quality and reliability. Whether you require wired or wireless communication, Telex® has a system to precisely fit your team and your budget. Our extensive line of innovative products, including the new BTR-1 digitally encrypted wireless intercom system and our new PH-100 and PH-200 headsets, give you the widest variety of communication choices available. Telex® systems easily adapt to any existing stadium setup, so no engineering expertise is necessary, and our modular designs give you the flexibility to start small and add more users as needed. Plus, choosing Telex® gives you the added value and assurance of complete service and support, before, during, and after your purchase. We're always on hand to help with all your system configuration and application questions.

BTR-800

Synthesized Dual-Channel Wireless Intercom

- Frequency-Agile Base Station & Beltpacks
- Base Stations are Table or Rackmountable
- ClearScan® Function
- SA (Stage-Announce) Beltpack Control
- Two Channels of Intercom Audio
- WTA (Wireless Talk About) Beltpack Control
- Full Duplex (Simultaneous Talk & Listen) Operation
- Beltpack unit contained in a weather and shock resistant die cast magnesium case

Telex Legacy™ 2.4GHz License-Free Wireless Intercom

- License-Free Operation
- 64-Bit Encrypted Audio
- Full Duplex Operation
- 3 Audio Channels
- Automatic RF Channel Selection via ClearScan™
- Headset Volume and Mic Volume can be Adjusted Separately
- System Supports Up To 14 Headsets (Full-Duplex)
- Easy Setup and Operation
- Operates on IEEE 802.11b "WiFi" Standard
- Operating Range Up To 800 ft, Line of Sight (Beltpack to Base Station)
- Low Battery Indicators on Beltpack and Base Station
- Battery Charge Indicators on Beltpack and Base Station

BTR-1

UHF-Synthesized Digitally-Encrypted Wireless Intercom

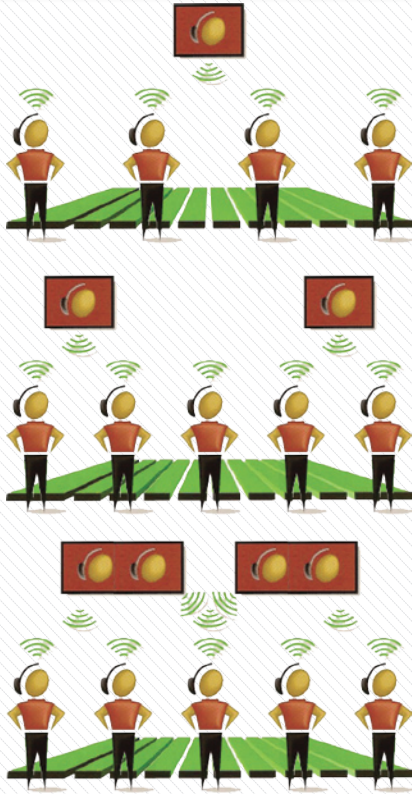

The Telex® RadioCom™ BTR-1 UHF wireless intercom is the ultimate in reliable, high performance, digitally-encrypted, full duplex communication. The BTR-1 system includes the BTR-1 frequency-agile base station and the TR-1 frequency-agile beltpack. The base station provides the beltpack with access to a six-intercom port matrix, for connecting two-wire intercom systems made by Telex® Audiocom®, RTS®, and Clear-Com®. The system also easily interfaces with four-wire systems.

In addition to two- and four-wire intercom systems, the base station provides connections for auxiliary balanced input and output, as well relay closure. One of the six intercom lines can also be used for wireless-only communication intercom. Though perfectly suited for stand-alone operation, the BTR-1 system can be easily expanded to incorporate dozens more base stations. The high-efficiency TR-1 beltpack provides up to nine hours of uninterrupted operation using standard alkaline batteries. In addition to its durable, efficient design, the system offers the flexibility of a 482 to 698 MHz operating frequency range.

- Frequency Agile Base Station & Beltpacks
- No external computer/device required to select frequencies
- Telex Communications® proprietary digitally encrypted wireless communication between the base station & beltpack.
- RF Meter display on the base station operating screen.
- The frequencies of a beltpack may be changed at the beltpack or from the base station.
- Beltpack battery gauge display on base station operating screen.
- Compatible with Telex® Audiocom®, RTS® Digital Matrix Intercom, RTS® Two-Wire Intercom, Clear-Com® and other wired intercom types.
- Relay contact closure on the base station that can be activated from the beltpack.
- Clear-Scan® Function
- Base stations are table or rack mountable.

Wireless

TELEX RadioCom™

- Wireless freedom and flexibility
- Full duplex for hands-free operation
- Operator friendly
- No one goes on standby!
- No wires or cords
- Expandable system design
- Year-round service
- Three year warranty

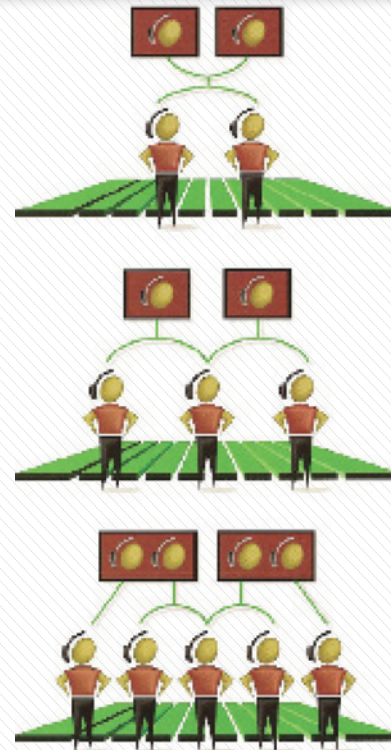

Recognized as the industry leader in wireless intercom, Telex® RadioCom™ offers a complete suite of full duplex, hands-free, highly configurable system platforms, for freedom of movement with “wired-like” performance. Award-winning products such as the BTR-800 two-channel, frequency-agile wireless, the TR-825 two-channel stereo beltpack transceiver, the BTR-1 digitally encrypted intercom, and the Telex® Legacy™ 2.4GHz license-free wireless intercom system make Telex® RadioCom™ the brand of choice for professional, college, and high school sports communications.

Wired

TELEX Audiocom®

- Quiet: balanced audio
- Full duplex for hands-free operation
- Sets up in minutes
- Fully portable
- Uses any existing stadium wire
- Expandable to any number of users
- Year-round service
- One year warranty

Telex® Audiocom® has been the standard coaches' intercom for the National Football League for over 20 years. The modular design of Telex® Audiocom® products allows the addition of virtually any number of coaches to any individual line: no more being tied down to a fixed number of users, as with other systems! No wired sports intercom systems are more flexible: Telex® Audiocom®'s balanced line feature easily connects to any stadium wiring, for system setup in minutes.
